# How to use Style Linter

Yellow = Code is being Linted

The screenshot shows a GitHub repository page for 'Code Avengers'. At the top, a commit by 'TristonBabers' titled 'Update Main\_Build.yml' is shown, with a yellow dot indicating it is being linted. A tooltip for this commit states: 'Some checks haven't completed yet' and '1 queued check'. Below the commit, a table lists files and their commit messages. The 'CI / build (push)' status is shown as 'Queued — Waiting to run this check...'. The repository name 'Code Avengers' and a star icon are visible, along with the section title 'Team Agenda (Week 7)'.

# Discuss Project Progress

- Discuss the team's Progress so far, so we have an idea how close we are to completion

## 3 Teams Present what they've accomplished so far:

- Home Page Team
- Recipe Editor Team
- Recipe Viewer Team

# Obstacles

- There are probably many issues and challenges at this point in development
- Please bring up your concerns at this time.

# Branch Management and Style Logs

We will be using Pull Requests going forward, when your team has finished implementing a feature and wants to integrate it into the project, from now on it must pass all the style checks before being committed.

Also, there are some style issues raised in the current log on GitHub, as it was just implemented. Please use the logs to fix the ones that were pushed by your team.

MEETING END!

*That's all Folks!*
